Australia's  
**Number 1**  
Buffalo Lawn

### AUSTRALIA'S NUMBER ONE

There are so many reasons why Sir Walter is Australia's No. 1 Buffalo. Sir Walter Buffalo Lawn has stood the test of time, proving time and time again that it will go anywhere and grow anywhere; in full sun or shade, in extreme heat, frost or drought.

Born right here in Australia, Sir Walter was bred to be tough yet soft, and good looking to boot!

Since 1997 there has been over 50 million metres of Sir Walter sold Australia wide - the equivalent to 350,000 homes. It is versatile and hardy, many factors which cause most other lawns a problem. There is really no match for Sir Walter.

### MORE THAN JUST LAWN

When you purchase Sir Walter, you're not just buying a new lawn, you're buying a whole new way of life. Gone will be the days of playing that game of backyard footy and ending up with a knee full of bindii, or diving for that superb catch only to finish with a mouthful of dirt.

Sir Walter is lush and green, with a tight growth habit to hold out most weeds and the ability to repair itself quickly if damaged lessening the incidence of bare patches. You'll also find that mowing now becomes less of a chore, as the finished result will amaze you every time.

### PROVEN PERFORMER

Why have a brown lawn during summer when a lush green drought tolerant lawn like Sir Walter can make you the envy of your street.

Sir Walter's roots grow deep into the subsoil gathering the moisture. A Sir Walter lawn can reduce the heat generated from the sun by up to 10 degrees around your home.

A lot of different Buffalo Grasses are available on the market, but none of these have been able to surpass Sir Walter in ticking all the right boxes.
