

WHY CHOOSE EUREKA KIKUYU?

An economical all rounder kikuyu grass

As a proven performer in most Australian climates, Eureka Kikuyu grass is a vigorous grower that stands up to a wide range of conditions. Good for both home lawns and larger spaces such as racecourses or parks, Eureka is Australia's number one kikuyu grass.

Eureka Kikuyu is also a great solution for planting out larger areas and erosion control given the rapid spread of its runners in favourable conditions. Its tolerance of water logged soils can also make it the best choice for transpiration areas.

Eureka Kikuyu spreads by its vigorous growth from stolons and rhizomes and is a coarse textured grass with a high growth rate. The leaves are approximately 4 - 5mm wide and 25 - 40mm long and are yellow - green in colour.

Good for home lawns, racecourses, parks and reserves, golf tees and fairways.

Quick repairer

Preferring a sunny aspect, **Eureka Kikuyu** is a dense, rapid growing lawn. Its vigorous growth habit allows it to repair very quickly if damaged and it is able to establish a strong, deep root base to help it stand up to the hottest summer days.

It holds its colour well into winter. It will brown off when frost affected but bounces back with full vigour in spring.

Eureka Kikuyu enjoys a long growing season and with regular mowing will hold a good tight growth mat.

Here are some reasons why Eureka Kikuyu is a great choice

- ▶ **Australia's number one kikuyu grass**
- ▶ **Medium coarse bright green leaves**
- ▶ **A strong, deep root base helps it stand up to the hottest summer days**
