DIRECTIONS FOR USE

Lawnporn Hero is a blend of liquid humic acid and organic catalysts, proven to increase microbiological activity and improve the cation exchange capacity of the soil. Lawnporn Hero can be used as a foliar and/or soil drench to supplement a complete nutrition program to enhance soil and plant health, particularly in sand based root-zones.

Shake well before use and apply as a spray application on all turf grasses. Apply in sufficient water to achieve adequate plant coverage at the minimum dilution rates specified in the table below. In hot weather use higher dilution rates.

CAUTION

Avoid application to hard surfaces such as concrete and stone as the product may stain. Do not use in spray equipment that has previously been used for herbicide application.

SITUATION	RATE	COMMENTS
Turf lawns of all varieties - foliar application	100-200mL/100m ² watering can rate 20-50mL-9L/25m ²	Apply with a hand sprayer in a minimum dilution rate of 1:100 parts water. Repeat monthly.
Turf lawns of all varieties - soil application	100-200mL/100m ² watering can rate 20-50mL-9L/25m ²	Apply with a hand sprayer in a minimum dilution rate of 1:100 parts water and irrigate following application with 3-6 mm. Repeat monthly.

MIXING

Fill spray tank with half the required volume of water. Shake container of Lawnporn Hero and add required amount to spray tank while stirring.

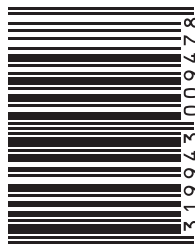

STORAGE

Do not store below -5°C as crystallisation may occur.

FIRST AID & SAFETY DIRECTIONS

In case of contact with eyes or skin, flush at once with large amounts of water. If irritation persists, seek medical attention. If swallowed, drink large amounts of water and induce vomiting. Seek medical attention.
