# TURFECT® REPAIR

**4**  
IN  
**PRODUCT**

A professional liquid fertiliser, formulated to support turf health, hardiness and recovery. Provides a broad spectrum, readily available source of essential macro and micro nutrients, and is particularly high in Potassium.

**WATCH HOW TO**

## APPLICATION RATES

Rate/m <sup>2</sup>	Frequency
5-7ml in 50-70ml of water	4-8 weeks

Or add 100ml to 1L water and apply over 15-20m<sup>2</sup>.

Always shake well before use.

Foliar apply to turf leaf, using high quality hand held or back pack spraying equipment.

**AVAILABLE: 1L**

### IMPROVES WATER USE

High in potassium and phosphorus to improve water uptake and recovery.

### ENHANCES ROOT GROWTH

Contains kelp to boost root growth and strengthen turf.

### IMPROVES NUTRIENT UPTAKE

Corrects deficiencies and delivers quick results. This liquid lawn food is absorbed through the turf leaf instead of the soil so it can be applied throughout the year.

### BOOSTS SOIL HEALTH

Enriched with humic acid and BiOWiSH to optimise nutrient uptake and boost root and soil health.
