PREMIUM SOIL CONDITIONERS

Lime Mini

38% Ca

Features of Lime Mini

- ✓ Highly concentrated, water-dispersive granule
- ✓ Ideal for use on finecut turf such as golf and bowling greens
- ✓ Excellent for displacing sodium & increasing pH of acidic soils
- ✓ Ideal for renovation or throughout the year in a maintenance program
- ✓ Premium soil conditioner
- ✓ For best results apply with a calibrated fertiliser spreader

GUARANTEED MINIMUM ANALYSIS

Calcium (Ca) as carbonate – 38.0%

Maintenance Rate: 2-4kg / 100m² or 200-400kg / Ha

Renovation Rate: 5-10kg / 100m² or 400-1000kg / Ha

AmendMAX Lime Mini is a highly concentrated, water-dispersive lime amendment suitable for use on fine cut turf such as golf and bowling greens, either at renovation or throughout the year in a maintenance program. Excellent for use as a sodium displacement agent and increasing pH of acidic soils.

Application Guide

For best results, apply the product to a dry leaf, and then irrigate following application to disperse the granules and move them into the soil profile to initiate the amendment process. To achieve the best results, apply using a calibrated fertiliser spreader.

For more information on spreader settings, discuss with your sales representative.

Storage & Disposal

Reseal partially used bags, and store all bags in a dry, well-ventilated area. If the product becomes wet, the granular nature of the product will be compromised.
